

TECH RIDER *(half production)*

Production requires:

- **P.A.** (L+R feeds to Keyboards position)
- 1x WEDGE MONITOR as per stage plan (feed to Keyboards position)
- **Lighting system suitable for the considered venue**
- **Video projector system: HDMI/VGA feed to Keyboards position**
- 220v distribution (Schuko or universal plugs)
- mt. 2x2 drum riser
- quick change area, with chairs and lights
- n.12 still water bottles at load in
- **F.o.h.:** We required a covered sun/rain protected area to put our mixing console in. We need a table and 220v power supply. We have our own multicore Cat5e cable which length is 50mt. Please provide yellow jackets for the path from f.o.h. to stage. If the distance were over 50mt the promotor will supply a cat5e cable (max 75mt). **This is very important !! please advise !**
- **Personnel:** we have our own f.o.h. engineer. We need a lighting engineer operating during the show.
- **Vehicles:** We drive a 9seats van (Citroen Jumpy, plate no. EZ 279 ZP). Please provide a safe and free parking area and provide circulation permits if needed
- **Hospitality** (if needed): dinner for 7 persons, hotel for 7 persone (2 dbl, 1 tpl) with secured parking.

N.B: Production carries their own backline, microphones, stands, mixing consolle and in-ear systems.
