RADIOACTIVE - IMAGINE DRAGONS TRIBUTE

show requirements

In order to perform at its best, the band needs to be provided of:

- A professional mixer with at least 22 channels and 4 AUX outputs
- A minimum stage size of 7x5m and a professional lighting system
- The band does not have its own P.A. The system should be of adequate power for the location of the show

The band owns the following special effects, to be used if possible according to local safety legislation:

- 2x flames machine
- 2x Co2 Geyser
- 2x Confetti cannon
